WE SERVICES

INCLUSIVE MOBILITY SERVICE

MAKE YOUR EVENT ACCESSIBLE TO EVERYONE

- **KEY FEATURES**

A smartphone-accessible tool that helps every visitor find their way around the venue and navigate from nearby access points.
Designed for all visitors, the tool also offers routes tailored to people with disabilities.

Ezymob provides an **inclusive, interactive map** that can adapt to temporary event layouts, with no installation required.

Promoting this solution helps you address the **requirements of the ISO 20121 standard** for sustainable event management, while **demonstrating your commitment to corporate social responsibility** (CSR) to attendees and partners.

An inclusive event is one that leaves no one behind.

1. ABOUT THE SERVICE

An inclusive, interactive map that allows attendees to view their routes within the venue and navigate from public transport stops or external access points to their destination.

Navigation tailored to a wide range of needs, including those of people with reduced mobility, visual impairments or cognitive disabilities.

Easy access via smartphone, with no complex installation required.
